Mission

The Current education system does no focus on training young people in employable skills that can provide them with employment opportunities. Today, a large section of India's labor force has outdated skills. With current and expected economic growth, this challenge is going to only increase further, since more than 75% of new job opportunities are expected to be "Skill-based." Our Mission is To integrate efforts of various departments of the State and Central Government Organizations engaged in providing skill development training and make available employment oriented and placement linked training in vocational skills to 20000 youth in the age group of 18 to 35 years by 2018-22, and even at a greater pace thereafter, by partnering with government and private training providers, while ensuring equitable access to the most disadvantaged, including women; and strive for placement of preferably at least 70% of the trained youth in gainful wage and self-employment to enable them to contribute to the economic development of the State

The Planet Skill Development Mission
सबको हुनर, सबको काम

Vision

By the end of the Plan period, all the youth of the state/Country who cannot complete their education due to any reason (financial, personal can pursue a formal education), would have fair choices to acquire skills that are relevant to the employers, at a reasonable cost and within reasonable distance from their residence and would have the facility to obtain professional counseling in making good choices based upon their interest and aptitude and also employment potential of the skill and would also be facilitated in obtaining placement after acquiring certification
